Kiss Me First Lottie Moggach

A chilling and intense first novel, the story of a solitary young woman drawn into an online world run by a charismatic web guru who entices her into impersonating a glamorous but desperate woman.

When Leila discovers the Web site Red Pill, she feels she has finally found people who understand her. A sheltered young woman raised by her mother, Leila has often struggled to connect with the girls at school; but on Red Pill, a chat forum for ethical debate, Leila comes into her own, impressing the Web site's founder, a brilliant and elusive man named Adrian. Leila is thrilled when Adrian asks to meet her, flattered when he invites her to be part of "Project Tess." Tess is a woman Leila might never have met in real life. She is beautiful, urbane, witty, and damaged. As they e-mail, chat, and Skype, Leila becomes enveloped in the world of Tess, learning every single thing she can about this other woman—because soon, Leila will have to become her. An ingeniously plotted novel of stolen identity, *Kiss Me First* is brilliantly frightening about the lies we tell—to ourselves, to others, for good, and for ill.
