Wendy Northcutt

**The Darwin Awards Next Evolution: Chlorinating the Gene Pool** Wendy Northcutt

**The latest installment of the hilarious *New York Times* bestselling phenomenon?more than 1.5 million copies sold!**

*New York Times* bestselling author Wendy Northcutt is back, asking, "Have we evolved at all?" The answer: Not all of us.

What crazy cocktail of DNA leads *Homo sapiens* to do pull-ups off the edge of a seventh-floor balcony or wrap their lips around a paintball gun and pull the trigger? How about offering a beer to a bear or self-testing a Taser? Why not go joyriding in a shopping cart strapped to an SUV or jump a drawbridge on a bicycle?

Fully illustrated with over a hundred new jaw-dropping and side-splitting feats of stupidity?and including science essays by guest writers and answers to FAQs about evolution in action?The Darwin Awards Next Evolution continues the tradition of honoring the victims of appallingly poor survival instinct who selflessly improve our gene pool by removing themselves from it.

It should be here for you actually. So , don't miss this! Just read this e-book type for your better life and also knowledge.

#### **Emmett Willett:**

As a university student exactly feel bored to be able to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's spirit or real their pastime. They just do what the educator want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this The Darwin Awards Next Evolution: Chlorinating the Gene Pool can make you experience more interested to read.
