Drupal 6 JavaScript and jQuery

Matt Butcher

Drupal 6 JavaScript and jQuery Matt Butcher

This book focuses on teaching by example. Chapters are packed with example code, providing hands-on examples you can play with and then release to your own Drupal sites. By introducing short projects interspersed with discussion, the pace is rapid yet practical. This book is for web designers and developers who want to add JavaScript elements to Drupal themes or modules to create more flexible and responsive user interfaces. You are expected to know about the basic operation of Drupal, and be familiar with the concept of theming and modules in Drupal. No experience of creating themes or modules is required. You will need to know the basics of client-side web development; this means HTML, CSS, but also have a rudimentary grasp of the syntax of JavaScript. Familiarity with PHP programming will be an advantage, since we will be writing PHPTemplate files and (at the end) creating Drupal modules. However, the PHP is covered thoroughly enough that even the PHP neophyte will not find the text too demanding. The book also covers the jQuery JavaScript library and its use in Drupal, but no knowledge of jQuery is expected - you will learn everything you need in this book.

From reader reviews:

Henry Barba:

In this 21st millennium, people become competitive in each way. By being competitive currently, people have to do something to make these individuals survive, being in the middle of the particular crowded place and notice simply by surrounding. One thing that occasionally many people have underestimated this for a while is reading. Yes, by reading a reserve your ability to survive boost then having chance to endure than other is high. For you who want to start reading the book, we give you this Drupal 6 JavaScript and jQuery book as beginner and daily reading publication. Why, because this book is usually more than just a book.

Shirley Raine:

The reason why? Because this Drupal 6 JavaScript and jQuery is an unordinary book that the inside of the publication waiting for you to snap this but latter it will distress you with the secret this inside. Reading this book alongside it was fantastic author who also write the book in such amazing way makes the content within easier to understand, entertaining technique but still convey the meaning entirely. So, it is good for you because of not hesitating having this any longer or you going to regret it. This book will give you a lot of positive aspects than the other book have such as help improving your ability and your critical thinking method. So, still want to hold off having that book? If I were you I will go to the publication store hurriedly.

Samantha Graham:

Your reading 6th sense will not betray anyone, why because this Drupal 6 JavaScript and jQuery e-book written by well-known writer who knows well how to make book that could be understood by anyone who all read the book. Written in good manner for you, leaking every ideas and producing skill only for eliminate your own hunger then you still doubt Drupal 6 JavaScript and jQuery as good book not merely by the cover but also with the content. This is one e-book that can break don't determine book by its protect, so do you still needing an additional sixth sense to pick this kind of!? Oh come on your looking at sixth sense already alerted you so why you have to listening to one more sixth sense.

Marla Brinker:

Do you like reading a publication? Confuse to looking for your favorite book? Or your book ended up being rare? Why so many query for the book? But any people feel that they enjoy regarding reading. Some people likes looking at, not only science book and also novel and Drupal 6 JavaScript and jQuery or maybe others sources were given expertise for you. After you know how the good a book, you feel want to read more and more. Science reserve was created for teacher or students especially. Those guides are helping them to increase their knowledge. In some other case, beside science guide, any other book likes Drupal 6 JavaScript and jQuery to make your spare time a lot more colorful. Many types of book like here.
