From the mountainous area bordering Arizona and New Mexico, the western range of the Sierra Madres reaches south into Mexico to the state of Jalisco. The eastern range stretches from the Texas border down to Morelia and the Valley of Mexico. Ben Tinker spent years exploring this rugged wilderness and the vast deserts of Sonora and Baja California. *Mexican Wilderness and Wildlife* condenses a lifetime of outdoor lore and learning.

Tinker provides detailed life sketches of Mexico's Desert Bighorn Sheep, Pronghorn Antelope, Mule Deer, Whitetail Deer, Peccary, Grizzly and Black Bears, Wild Turkey, Jaguar, Mountain Lion, Timber Wolf, Coyote, and Bobcat. Each is illustrated by wildlife artist Doris Tischler, and Tinker describes their habitats, habits, reproduction, and peculiarities. Information is supplied on the physical measurements of several species of major wildlife. Tinker's observations are laced with anecdotes about his experiences in Mexico's remote backcountry—encounters with bandits, survival in the desert mountains, and the chance discovery of archaeological ruins.

The book describes the terrain and flora of the four life zones inhabited by major game and predatory animals. The section on desert water is a fascinating account of how animals thrive among cacti, thorn trees, and creosote bush remote from streams and waterholes. There is also a brief discussion of conservation efforts in Mexico, chapters on trout fishing in the Sierra Madre Occidental and Baja California, and a guide to big game habitats. This volume will be valuable to hunters, conservationists, naturalists, and others interested in the wilderness and wildlife of Mexico.

Ben Tinker collected much of the material for this book during the years he roamed northern Mexico as Federal Game Guardian. Though an American, Tinker had long been familiar with Mexican wildlife through his Sonoran ranching operation and was known for his interest in conservation when he was appointed by Alvaro Obregón in 1922.
