The Well-Tempered City: What Modern Science, Ancient Civilizations, and Human Nature Teach Us About the Future of Urban Life

Jonathan F. P. Rose

The Well-Tempered City: What Modern Science, Ancient Civilizations, and Human Nature Teach Us About the Future of Urban Life Jonathan F. P. Rose

In the vein of Jane Jacobs's *The Death and Life of Great American Cities* and Edward Glaeser's *Triumph of the City*, Jonathan F. P. Rose—a visionary in urban development and renewal—champions the role of cities in addressing the environmental, economic, and social challenges of the twenty-first century.

Cities are birthplaces of civilization; centers of culture, trade, and progress; cauldrons of opportunity—and the home of eighty percent of the world's population by 2050. As the 21st century progresses, metropolitan areas will bear the brunt of global megatrends such as climate change, natural resource depletion, population growth, income inequality, mass migrations, education and health disparities, among many others.

In *The Well-Tempered City*, Jonathan F. P. Rose—the man who “repairs the fabric of cities”—distills a lifetime of interdisciplinary research and firsthand experience into a five-pronged model for how to design and reshape our cities with the goal of equalizing their landscape of opportunity. Drawing from the musical concept of “temperament” as a way to achieve harmony, Rose argues that well-tempered cities can be infused with systems that bend the arc of their development toward equality, resilience, adaptability, well-being, and the ever-unfolding harmony between civilization and nature. These goals may never be fully achieved, but our cities will be richer and happier if we aspire to them, and if we infuse our every plan and constructive step with this intention.

A celebration of the city and an impassioned argument for its role in addressing the important issues in these volatile times, *The Well-Tempered City* is a reasoned, hopeful blueprint for a thriving metropolis—and the future.

Jesse Ward:

As a university student exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's spirit or real their pastime. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that examining is not important, boring as well as can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this The Well-Tempered City: What Modern Science, Ancient

Civilizations, and Human Nature Teach Us About the Future of Urban Life can make you feel more interested to read.
