Building on a Solid Foundation Daniel J. Daou, Antoine Bakhos, Joseph Bakh

Rev. Antoine Bakh Daniel J. Daou Joseph Bakhos This compelling explanation of the Catholic faith focuses on seven topics that are hardest hit by competing modern world-views. Written by two returning Catholics and the priest who inspired them, this book lays a strong scriptural foundation for Church teachings on the Trinity, the Eucharist, and the Church, as well as Catholic teachings regarding salvation, confession, purgatory, and Mary. Seven appendices also deal with questions pressing all Christians, including Genesis and evolution, science and faith, and the Catholic understanding of saints and relics. As such, this book provides a refuge for anyone who would like to encounter the real Christ and experience a personal relationship with him. More readable than a typical catechism, each chapter of Building on a Solid Foundation also provides a list of relevant scripture citations (useful for Bible studies), as well as excerpts from early Christian writings (A.D. 100-749) that affirm the amazing two-thousand-year continuity of Church teaching and witness to the Truth. Contents Introduction The Holy Trinity The Eucharist Salvation The Church Confession and Reconciliation Purgatory: The Fire of God's Love The Blessed Virgin Mary Epilogue Appendix A - The Fathers of the Church Appendix B - Version of the Bible That Were Used/ Bible Versions Appendix C - The Tale of Years Appendix D - Old Testament Types and Prophecies Fulfilled Appendix E - Genesis and Evolution Appendix F - Science and Faith Appendix G - Saints, Images, and Relics References Glossary Index
