Conscientious Objections: Stirring Up Trouble About Language, Technology and Education Neil Postman

In a series of feisty and ultimately hopeful essays, one of America's sharpest social critics casts a shrewd eye over contemporary culture to reveal the worst -- and the best -- of our habits of discourse, tendencies in education, and obsessions with technological novelty. Readers will find themselves rethinking many of their bedrock assumptions: Should education transmit culture or defend us against it? Is technological innovation progress or a peculiarly American addiction? When everyone watches the same television programs -- and television producers don't discriminate between the audiences for Sesame Street and Dynasty -- is childhood anything more than a sentimental concept? Writing in the traditions of Orwell and H.L. Mencken, Neil Postman sends shock waves of wit and critical intelligence through the cultural wasteland.

From the Trade Paperback edition.
