Research Methods in Library and Information Science, 6th Edition Lynn Silipigni Connaway, Marie L. Radford

An essential resource for LIS master's and doctoral students, new LIS faculty, and academic librarians, this book provides expert guidance and practical examples based on current research about quantitative and qualitative research methods and design.

- Now in its sixth edition, the book provides new and updated content that is even more comprehensive than before and contains added sections featuring the voices of prominent LIS scholars, researchers, and editors
- "Voices of the Experts" text boxes provide researchers' advice on specific methods and identify what was most important or most valuable about using a particular method and software for analysis?e.g., NVivo, SurveyMonkey, and log capture
- Written by coauthors with extensive expertise in research design, securing grant funding, and using the latest technology and data analysis software
