Landscape and Garden Design Sketchbooks Tim Richardson

An intimate glimpse into the private sketchbooks of the world's foremost landscape and garden designers

Garden and landscape designers are adept at interpreting outdoor spaces and transforming them into creatively conceived environments. Their ideas rarely come spontaneously: rather, the thoughtful designer considers a space from different perspectives or for several seasons, working out spacing, planting, materials, and color schemes in detailed preparatory sketchbooks.

For this unique publication, Tim Richardson, Director of the acclaimed Chelsea Fringe gardening festival in London, has selected thirty-seven talented landscape designers who are notable for the immense energy and creativity of their preparatory work. The best samples from their personal sketchbooks are presented alphabetically, along with concise profiles on their training, inspirations, and process. From clear perspective drawings to more abstract, experimental compositions, and quick freehand squiggles on napkins to measured topographical mapping, many of which are works of art in their own right, *Landscape and Garden Design Sketchbooks* is an insightful, practical guide that allows a peek into the world of leading landscape designers. 700+ illustrations in color and black-and-white
