Learning d3.js Data Visualization - Second Edition

Ændrew Rininsland, Swizec Teller

Learning d3.js Data Visualization - Second Edition Ændrew Rininsland, Swizec Teller

Key Features

- Understand how to best represent your data by developing the right kind of visualization
- Harness the power of D3 by building interactive and real-time data-driven web visualizations
- This book will provide a strong foundation in designing compelling web visualizations with D3.js

Book Description

D3 has emerged as one of the leading platforms to develop beautiful, interactive visualizations over the web. We begin by setting up a strong foundation, then build on this foundation book will take you through the entire world of reimagining data using interactive, animated visualizations created in D3.js.

In addition to covering the various features of D3.js to build a wide range of visualizations, we also focus on the entire process of representing data through visualizations so that developers and those interested in data visualization will get the entire process right.

We also include chapters that explore a wide range of visualizations through practical use cases. By the end of this book, you will have unlocked the mystery behind successful data visualizations and will be ready to use D3 to transform any data into a more engaging and sophisticated visualization.

What you will learn

- Gain a solid understanding of the common D3 development idioms
- Be able to input data, transform it, and output it as a visualization
- Add simple effects and user interactions to a visualization
- Find out how to write basic D3 code for server using Node.js
- Automate testing visualizations using Mocha
- Achieve fluency in ES2015, the most modern version of JavaScript

About the Author

Ændrew Rininsland is a developer and journalist who has spent much of the last half-decade building interactive content for newspapers such as The Times, Sunday Times, The Economist, and The Guardian. During his 3 years at The Times and Sunday Times, he worked on all kinds of editorial projects, ranging from obituaries of figures such as Nelson Mandela to high-profile data-driven investigations such as The Doping Scandal, the largest leak of sporting blood test data in history.

A prolific open source developer, Ændrew has released many kinds of projects, ranging from small utility libraries such as Doctop (which allow the creation of live updating datasets using Google Docs) to big charting tools such as AxisJS. He is also a co-maintainer of C3.js, a widely used abstraction of D3 that greatly speeds up the creation of several basic chart types, and GitHub.js, a library that makes it easy to interact with the GitHub API.

You can follow him on Twitter at @aendrew and on GitHub at github.com/aendrew.

Swizec Teller author of Data Visualization with d3.js, is a geek with a hat. Founding his first startup at 21, he is now looking for the next big idea as a full-stack web generalist focusing on freelancing for early-stage startup companies.

When he isn't coding, he's usually blogging, writing books, or giving talks at various non-conference events in Slovenia and nearby countries. He is still looking for a chance to speak at a big international conference.

In November 2012, he started writing Why Programmers Work At Night, and set out on a quest to improve the lives of developers everywhere.

Table of Contents

1. Getting Started with D3, ES2016, and Node.js
2. A Primer on DOM, SVG, and CSS
3. Making Data Useful
4. Defining the User Experience – Animation and Interaction
5. Layouts – D3's Black Magic
6. D3 on the Server with Node.js
7. Designing Good Data Visualizations
8. Having Confidence in Your Visualizations

From reader reviews:

William Herold:

The feeling that you get from Learning d3.js Data Visualization - Second Edition could be the more deep you looking the information that hide inside the words the more you get thinking about reading it. It doesn't mean that this book is hard to recognise but Learning d3.js Data Visualization - Second Edition giving you joy feeling of reading. The writer conveys their point in selected way that can be understood through anyone who read that because the author of this book is well-known enough. This specific book also makes your own vocabulary increase well. It is therefore easy to understand then can go to you, both in printed or e-book style are available. We advise you for having this particular Learning d3.js Data Visualization - Second Edition instantly.

David Williams:

Spent a free a chance to be fun activity to do! A lot of people spent their free time with their family, or their own friends. Usually they undertaking activity like watching television, likely to beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Can be reading a book could be option to fill your no cost time/ holiday. The first thing that you will ask may be what kinds of book that you should read. If you want to try look for book, may be the guide untitled Learning d3.js Data Visualization - Second Edition can be very good book to read. May be it could be best activity to you.

Gloria Eller:

The book untitled Learning d3.js Data Visualization - Second Edition contain a lot of information on the item. The writer explains the woman idea with easy way. The language is very simple to implement all the people, so do not worry, you can easy to read the idea. The book was authored by famous author. The author will take you in the new time of literary works. You can read this book because you can read more your smart phone, or gadget, so you can read the book within anywhere and anytime. If you want to buy the e-book, you can available their official web-site and also order it. Have a nice read.

James Wendler:

Reading a reserve make you to get more knowledge from this. You can take knowledge and information from the book. Book is published or printed or highlighted from each source that filled update of news. On this modern era like right now, many ways to get information are available for a person. From media social just like newspaper, magazines, science guide, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just seeking the Learning d3.js Data Visualization - Second Edition when you needed it?
