Guida in stato di alterazione psico-fisica (Italian Edition) Elio Santangelo

La Cannabis rappresenta la sostanza illegale più frequentemente utilizzata nel mondo ed è quella maggiormente abusata da parte di guidatori che riferiscono di aver guidato dopo aver fatto uso di sostanze stupefacenti. Dal momento che sia la Cannabis che l'alcool possono influenzare le funzioni cognitive, spesso è assunto che l'uso di Cannabis condizioni negativamente la performance di guida parimenti a quanto avviene per l'alcool: mentre il grado di disabilità correlato all'assunzione di alcool può essere stimato sulla base della concentrazione ematica misurata, non è stata invece del tutto accertata una chiara relazione tra le concentrazioni di cannabinoidi rilevate nel sangue o nella saliva e il corrispondente grado di disabilità.

Il volume si propone di delineare lo stato dell'arte sulla normativa italiana in tema di guida in stato di alterazione per uso di stupefacenti, approfondendo le indicazioni per la ricerca tossicologica su materiale biologico e la relativa interpretazione medico-legale del dato tossicologico.
