Radiology Case Review Series:Gastrointestinal Imaging Arnold C. Friedman, Stephen D. Scotti, Senthur Thangasamy

200 interactive brain imaging cases deliver the best board review possible!

- Effective 2-page presentation for each case
- Cases organized and coded by difficulty level
- Full-color design

Part of the acclaimed **McGraw-Hill's Radiology Case Review Series**, this unique resource challenges readers to look at a group of images, determine the diagnosis, answer related questions, and gauge their knowledge by reviewing the correct answer. It all adds up to the best review of brain imaging available – one that's ideal for certification or recertification, or as an incomparable clinical refresher.

Distinguished by an effective 2-page design and a full-color presentation, each book in this series is filled with cases, annotated images, questions and answers, pearls, and relevant literature references that will effectively prepare readers for virtually any exam on the subject. This comprehensive coverage spans everything from basic principles through the latest diagnostic imaging techniques and equipment and technology.
