**Eleventh Hour Linux+: Exam XK0-003 Study Guide** Graham Speake, Brian Barber, Chris Happel, Terrence V. Lillard

Eleventh Hour Linux+: Exam XK0-003 Study Guide offers a practical guide for those preparing for the Linux+ certification exam.

The book begins with a review of important concepts that are needed for successful operating system installation. These include computer hardware, environment settings, partitions, and network settings. The book presents the strategies for creating filesystems; different types of filesystems; the tools used to create filesystems; and the tools used to administer filesystems. It explains the Linux boot process; how to configure system and user profiles as well as the common environment variables; and how to use BASH command line interpreter.

The remaining chapters discuss how to install, configure, support, and remove applications; the configuration of Linux as a workstation and as a server; securing the Linux system; and common tools for managing a system. Each chapter includes information on exam objectives, exam warnings, and the top five toughest questions along with their answers.

- **Fast Facts** quickly review fundamentals
- **Exam Warnings** highlight particularly tough sections of the exam
- **Crunch Time** sidebars point out key concepts to remember
- **Did You Know?** sidebars cover sometimes forgotten details
- **Top Five Toughest Questions** and answers help you to prepare
