Lightroom 5 Made Easy Dave Kelly

Lightroom®5 Made Easy by Adobe Certified Instructor Dave Kelly with the Forward by Chas Glatzer. The Lightroom®5 software program is the most complete image organizing, image developing program available for photographers today. The Library module is far more than an image browser, it is a complete asset management program. There are multiple ways to bring images into Lightroom® and organize them, making them quick and easy to find. Images can be emailed, exported to hard drives, CDs, DVDs and file sharing sites on the web all from within Lightroom®5. The Develop module allows the photographer to bring out the best detail in the image. After developing the image it can be placed on a Google® map, organized into a book to be printed or a slideshow to be emailed to family, friends or clients or a web gallery to go up on the web. RAW files can be printed as single images, contact sheets or picture packages. All of this can be accomplished from within the Lightroom®5 software program. Lightroom®5 Made Easy is a true "how to" book. It not only tells photographers what can be accomplished in Lightroom®5, it takes them through all of the procedures and techniques available in the software using easy to understand, step by step instructions and screen shots. Some of the techniques presented have never before been presented in any book or video tutorial. The book was written to sit at the computer with the photographer and guide them through all the techniques in the seven modules. This book is for anyone looking to get a firm understanding of the full potential and creativity Lightroom®5 offers. Whether you are new to Digital photography or a working professional Lightroom®5 Made Easy will surely expand your photographic horizons.
