**Starved for Science: How Biotechnology Is Being Kept Out of Africa** Robert Paarlberg

Listen to a short interview with Robert Paarlberg

Host: Chris Gondek | Producer: Heron & Crane

Heading upcountry in Africa to visit small farms is absolutely exhilarating given the dramatic beauty of big skies, red soil, and arid vistas, but eventually the two-lane tarmac narrows to rutted dirt, and the journey must continue on foot. The farmers you eventually meet are mostly women, hardworking but visibly poor. They have no improved seeds, no chemical fertilizers, no irrigation, and with their meager crops they earn less than a dollar a day. Many are malnourished.

Nearly two-thirds of Africans are employed in agriculture, yet on a per-capita basis they produce roughly 20 percent less than they did in 1970. Although modern agricultural science was the key to reducing rural poverty in Asia, modern farm science—including biotechnology—has recently been kept out of Africa.

In *Starved for Science* Robert Paarlberg explains why poor African farmers are denied access to productive technologies, particularly genetically engineered seeds with improved resistance to insects and drought. He traces this obstacle to the current opposition to farm science in prosperous countries. Having embraced agricultural science to become well-fed themselves, those in wealthy countries are now instructing Africans—on the most dubious grounds—not to do the same.

In a book sure to generate intense debate, Paarlberg details how this cultural turn against agricultural science among affluent societies is now being exported, inappropriately, to Africa. Those who are opposed to the use of agricultural technologies are telling African farmers that, in effect, it would be just as well for them to remain poor.

### **From reader reviews:**

#### **Melvin Paul:**

The book Starved for Science: How Biotechnology Is Being Kept Out of Africa can give more knowledge and also the precise product information about everything you want. Why must we leave the good thing like a book Starved for Science: How Biotechnology Is Being Kept Out of Africa? Some of you have a different opinion about reserve. But one aim in which book can give many facts for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or data that you take for that, you may give for each other; it is possible to share all of these. Book Starved for Science: How Biotechnology Is Being Kept Out of Africa has simple shape but you know: it has great and large function for you. You can seem the enormous world by open and read a book. So it is very wonderful.

#### **Margaret Morales:**

This book untitled Starved for Science: How Biotechnology Is Being Kept Out of Africa to be one of several books which best seller in this year, here is because when you read this reserve you can get a lot of benefit in it. You will easily to buy this book in the book retailer or you can order it by way of online. The publisher of the book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Mobile phone. So there is no reason to you to past this reserve from your list.

#### **Ricky Dotson:**

Are you kind of stressful person, only have 10 or even 15 minute in your moment to upgrading your mind ability or thinking skill actually analytical thinking? Then you are receiving problem with the book when compared with can satisfy your small amount of time to read it because this all time you only find e-book that need more time to be examine. Starved for Science: How Biotechnology Is Being Kept Out of Africa can be your answer since it can be read by you who have those short extra time problems.

#### **Jennifer Chambers:**

Reading a publication make you to get more knowledge from this. You can take knowledge and information from the book. Book is created or printed or outlined from each source that filled update of news. In this particular modern era like now, many ways to get information are available for a person. From media social such as newspaper, magazines, science publication, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you ready to spend your spare time to spread out your book? Or just in search of the Starved for Science: How Biotechnology Is Being Kept Out of Africa when you necessary it?
